

Marcus Hall

Software Developer | Systems Analysis | Data Structures

@ Email linkedin.com undefined

SUMMARY

With 5 years of progressive experience in software development, I bring a deep understanding of data structures, system analysis, and modern software stacks. Keen on pursuing complex problems, transforming abstract concepts into functional software solutions.

EXPERIENCE

Software Developer

IBM

2018 - 2021 San Francisco, CA

- Developed software enhancements for a suite of enterprise-level, cloud-based applications.
- Lead design and development of 3 features which increased application performance by 20%.
 - Coordinated with cross-functional teams resulting in defining robust software implementations for 5+ clients.
 - Reduced bug incidence by 15% by incorporating unit testing throughout development life cycle.

Systems Analyst

Microsoft

2015 - 2018 Seattle, WA

- Responsible for designing, developing, and implementing software systems.
- Implemented new system process reducing the system downtime by 10%.
 - Successfully executed 5+ system migration projects with zero data loss.
 - Eliminated system vulnerabilities by conducting regular system audits.

EDUCATION

Master's degree in Computer Science

Stanford University

2013 - 2015 Stanford, CA

Bachelor's degree in Computer Science

California Institute of Technology

2009 - 2013 Pasadena, CA

LANGUAGES

English
Native

Spanish
Advanced

STRENGTHS

- Problem Solving**
Proficient in breaking down complex software problems into manageable tasks and creating efficient solutions.
- Collaboration**
Skilled at collaborating with cross-functional teams, leading to successful project completions.
- Software Development**
Experienced in different stages of software development lifecycle, leading to streamlined processes.

SKILLS

Java	C++	Python	Data Analysis
System Analysis			
Software Development		SQL	Git

CERTIFICATION

- Certification in Data Structures**
A rigorous and comprehensive course provided by Stanford University on data structures.
- Certification in System Analysis**
An in-depth course on systems analysis provided by Massachusetts Institute of Technology.

INTERESTS

- Algorithm Development**
Love diving deep into a world of algorithms, designing and developing to solve complex problems.
- Rock Climbing**
Enjoy outdoor pursuits, particularly rock climbing. It brings together determination, endurance and tactical planning.
